

YOU & MATHS **What number is it?** Below are some descriptions of numbers given by a child who is still learning about decimal positional notation. Rewrite the numbers in correct decimal positional notation.

- a. Four units and eleven tens.
- b. Twenty three hundreds and forty units.
- c. Two thousands, thirty two hundreds, fifty one units.

It may help to write the numbers as results of additions as follows:

- a. $4 + 110 = 114$;
- b. $2300 + 40 = 2340$;
- c. $2000 + 3200 + 51 = 5251$.
