YOU & MATHS   **What number is it?** Below are some descriptions of numbers given by a child who is still learning about decimal positional notation. Rewrite the numbers in correct decimal positional notation.

**a.** Four units and eleven tens.

**b.** Twenty three hundreds and forty units.

**c.** Two thousands, thirty two hundreds, fifty one units.

It may help to write the numbers as results of additions as follows:

**a.** $4 + 110 = 114$;

**b.** $2300 + 40 = 2340$;

**c.** $2000 + 3200 + 51 = 5251$.
