

# ANCORA SVILUPPI DI FIGURE SOLIDE

Osserva l'immagine e cerca di interpretare quello che ti si chiede di fare

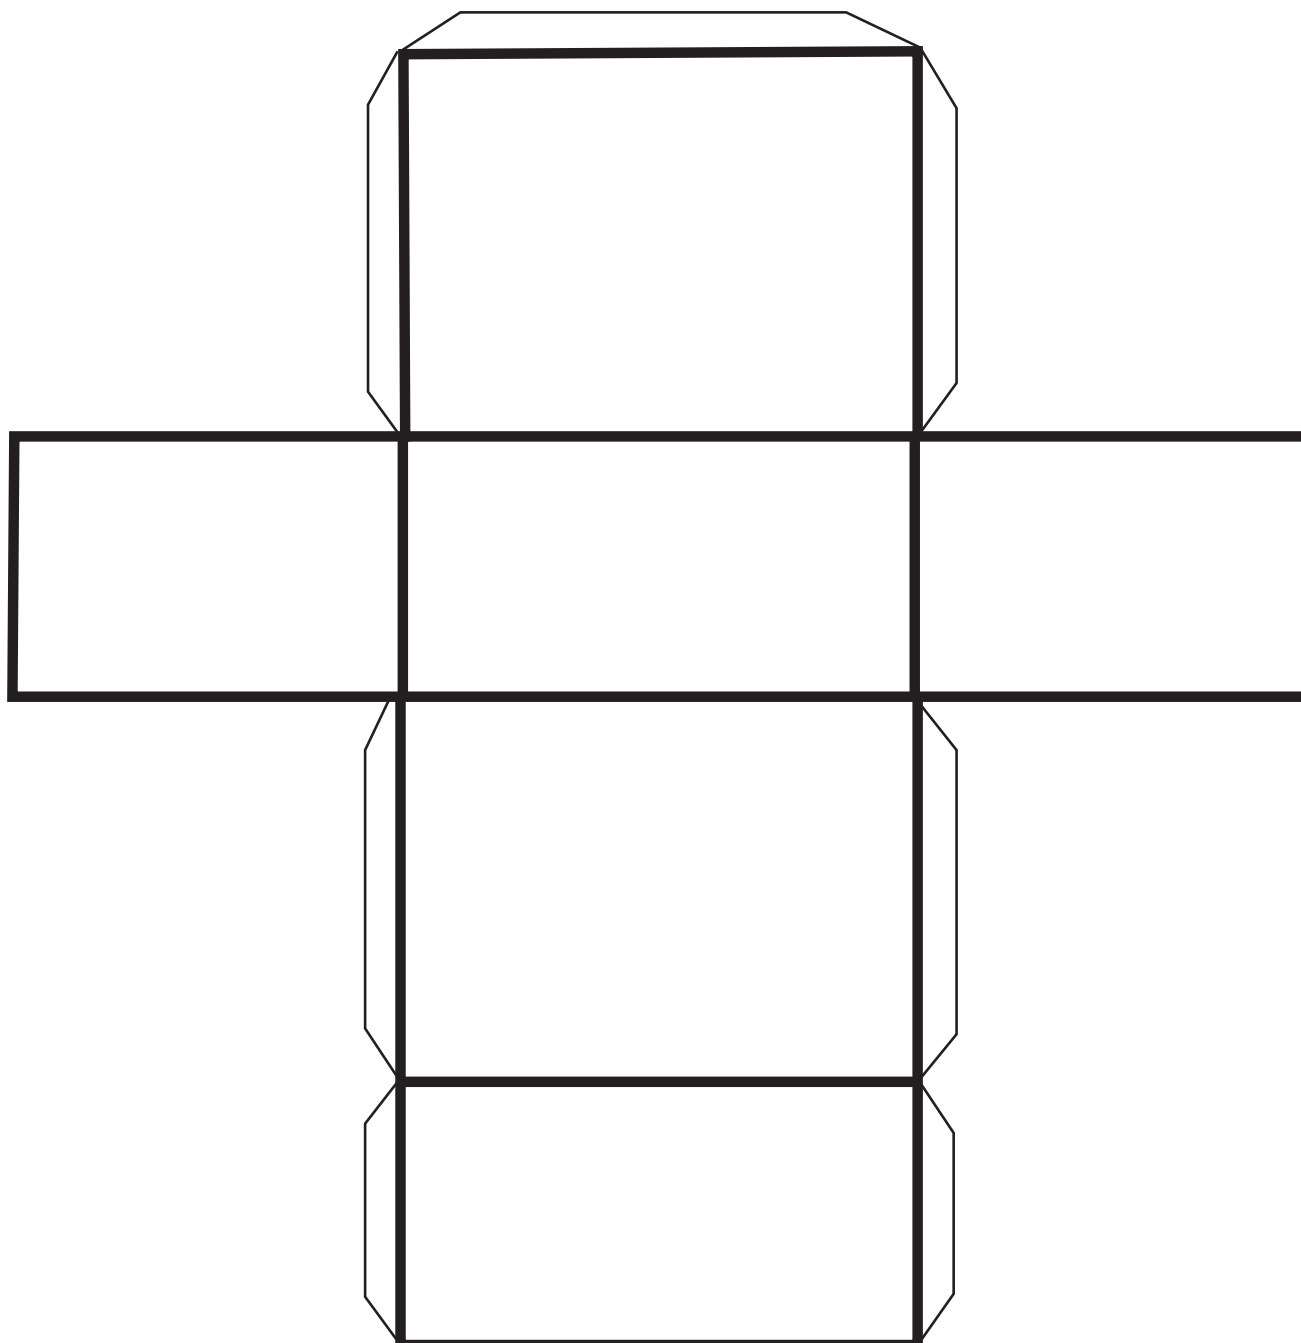

Se ne hai la possibilità (uso delle forbici e permesso dell'insegnante) esegui quello che ti viene chiesto di fare. Di quale solido hai ritagliato (o hai semplicemente intuito) lo sviluppo?.....

## ANCORA SVILUPPI DI FIGURE SOLIDE

Questo è lo sviluppo di un parallelepipedo rettangolo. Sono presenti anche le sette linguette per chiuderlo bene. Puoi fare a meno del nastro adesivo e usare solo un po' di colla. Costruisci il solido.

scheda 2

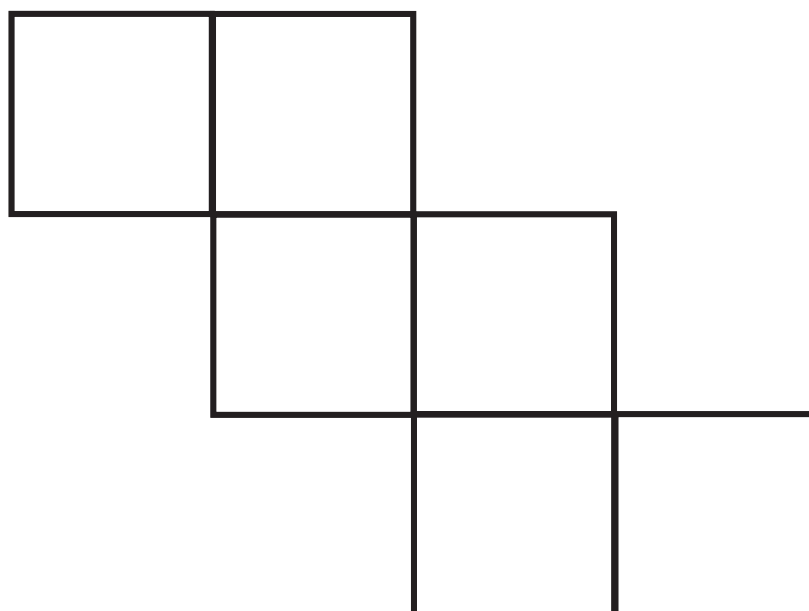

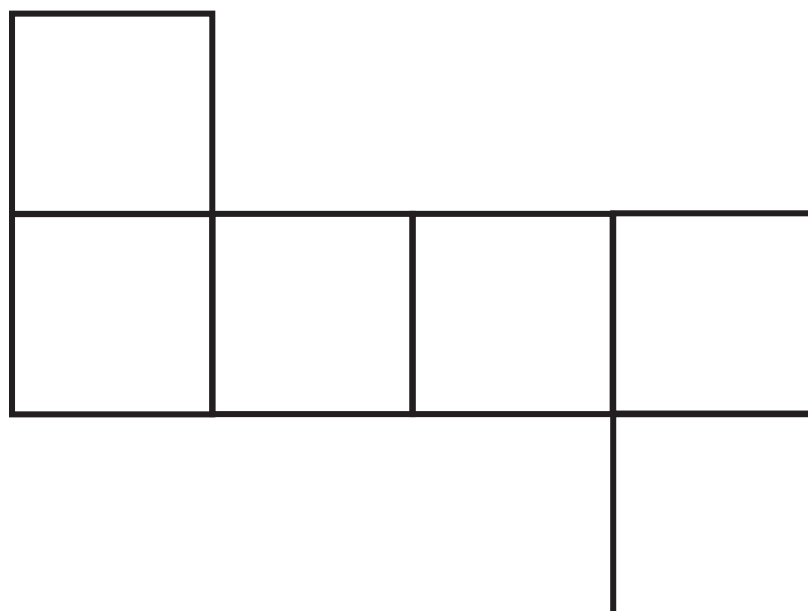

Se osservi questo sviluppo con quello della scheda precedente, che osservazione puoi fare?

.....

Discutine con i compagni.

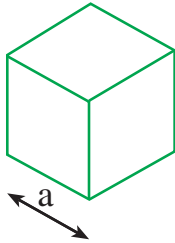

## ANCORA SVILUPPI DI FIGURE SOLIDE

Dovresti avere già lavorato sugli sviluppi del cubo. Te ne presentiamo altri due. Ritaglia le figure e ricostruisci i solidi. Puoi tu stesso disegnare le “linguette” per chiudere le figure. Sono sette linguette, come quelle viste per il parallelepipedo rettangolo (nella scheda precedente). Come sempre, se gli sviluppi sono troppo piccoli, puoi ridisegnarli su carta centimetrata, ingrandendoli.

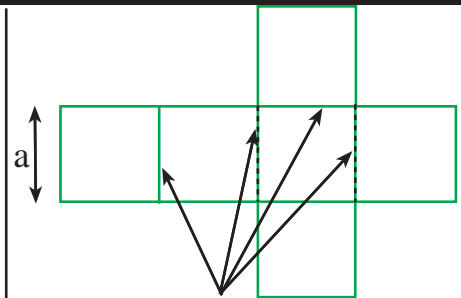

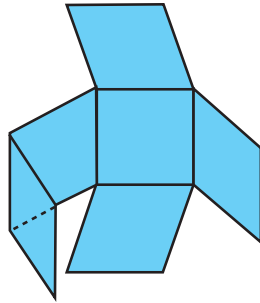

# ANCORA SVILUPPI DI FIGURE SOLIDE

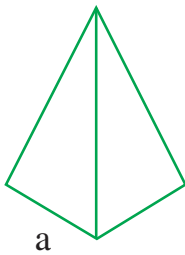

Osserva le immagini. nelle zone punteggiate devi inserire questi vocaboli: cubo, cilindro, piramide, cono, circonferenza, diametro, spigoli.

# ANCORA SVILUPPI DI FIGURE SOLIDE

In ciascuna fila devi scegliere lo sviluppo corretto del solido indicato a sinistra.

<p>1</p> 	<p>a</p> 	<p>b</p> 	<p>c</p> 
<p>2</p> 	<p>a</p> 	<p>b</p> 	<p>c</p> 
<p>3</p> 	<p>a</p> 	<p>b</p> 	<p>c</p> 
<p>4</p> 	<p>a</p> 	<p>b</p> 	<p>c</p> 
<p>5</p> 	<p>a</p> 	<p>b</p> 	<p>c</p> 

# ANCORA SVILUPPI DI FIGURE SOLIDE

Osserva lo sviluppo di questo solido.

- a) Quante sono le sue facce?.....
  - b) Quanti sono i suoi spigoli?.....
  - c) Quale è il suo nome esatto?.....
- Disegna le linguette indispensabili per poter chiudere il solido. Ritaglia l'immagine e costruisci il solido.
